

Business Central Switch

Make the Move. Solve Problems.

And lay strong foundations to support growth.

Business Central Switch

What is it?

Switching out your current ERP solution and moving to Dynamics 365 Business Central doesn't have to be complicated - or costly! Business Central Switch is Xperience's streamlined implementation approach designed to get you up and running with all the essentials you need - FAST!

Forget bloated projects and endless configurations. We deliver a focused, core setup for Business Central tailored to your immediate needs - so you can start realising value from day one. As your business evolves our scalable core+ bundle lets you expand with confidence.

With Business Central Switch you don't pay for features you don't need. You get exactly what your business requires now, with a clear path to grow. From day one, we help you put your data at the heart of your operations - empowering smarter decisions through better insights and reporting.

Simple. Scalable. Smart. That's how you start Business Central the right way!

And why should I use the Switch program?

Many businesses are stuck with ERP systems that no longer serve them. Manual workarounds, outdated reporting, complex upgrades, and rigid pricing models can hold a business back; but they don't have the time or the budget to make the transition they need to Business Central; a modern ERP solution.

Business Central Switch exists to fix that.

If you're frustrated by:

- Poor reporting and lack of business insight.
- High costs to upgrade or maintain your current ERP.
- Clunky user experiences and endless workarounds.
- A solution that can't grow with your business.

It's time to switch!

Built for speed. Designed for scale.

What is included in **Business Central Switch**?

Business Central is a rich functionality solution, and by utilising the Switch approach to implementation and set-up you can get onto the solution without the long timeframe and high costs. Get started right away on our Switch program which is focused on implementing and training users on the core solution.

Business Central Switch implementation will include set-up and training on:

-  Purchase Invoice & Credit Processing
-  Bank Reconciliation
-  Outlook & Teams Integration
-  Budgeting Tools as standard
-  Balance sheet reporting
-  Income statement reporting
-  Emailing direct from the system
-  Excel Integration
-  Standard VAT reporting
-  HMRC integration – MTD compliance

-  Single company set-up & Configuration
-  General, Sales & Vendor Ledgers
-  Standard user accounts & permissions
-  Training on user personalisation
-  Default Chart of Accounts
-  Unlimited dimension analysis
-  Payment Terms
-  Payment Discounts
-  Sales Invoice & Credit Processing
-  Multiple currencies

Implementing Business Central utilising the **Xperience Switch program is perfect for businesses:**

- Who feel they've outgrown their current ERP system and need:
 - Real-time reporting and business insights
 - Integration with key business systems
 - Automated workflows and processes (moving away from manual workarounds)
 - Advanced feature functionality (multi-currency/company consolidation)
 - A stable, secure & reliable system
- That want to avoid a long-winded, time-consuming ERP refresh
- That need to control ERP switching costs
- Looking to make a change & seek new ways of working

Why choose Business Central as your foundational ERP Solution?

1. Feature Functionality:

Powerful core functionality ensures you see an immediate return on your investment. See your business thrive with enhanced capabilities.

2. Cloud Based Solution:

Say goodbye to expensive hardware and constant upgrades. Business Central is a cloud-based solution meaning you'll never worry about server upgrade costs again.

3. It's Microsoft:

Benefit from the seamless integration across the Microsoft Stack including productivity tools like Outlook, Excel & Teams. Boost collaboration and productivity from day one.

4. Ease of Use:

With its familiar interface and personalised role centre access, your team will feel right at home. Less time spent on training means more time spent doing what they do best.

5. Accessible:

Access Business Central from anywhere using a laptop, tablet, or smartphone. Stay connected and productive, no matter where you are.
